

GETTING STARTED:

Before you begin, make sure all components are handy. No tools are required, but scissors may be helpful and are recommended.

Remove Trellis Net and Crossbar from the Staking System

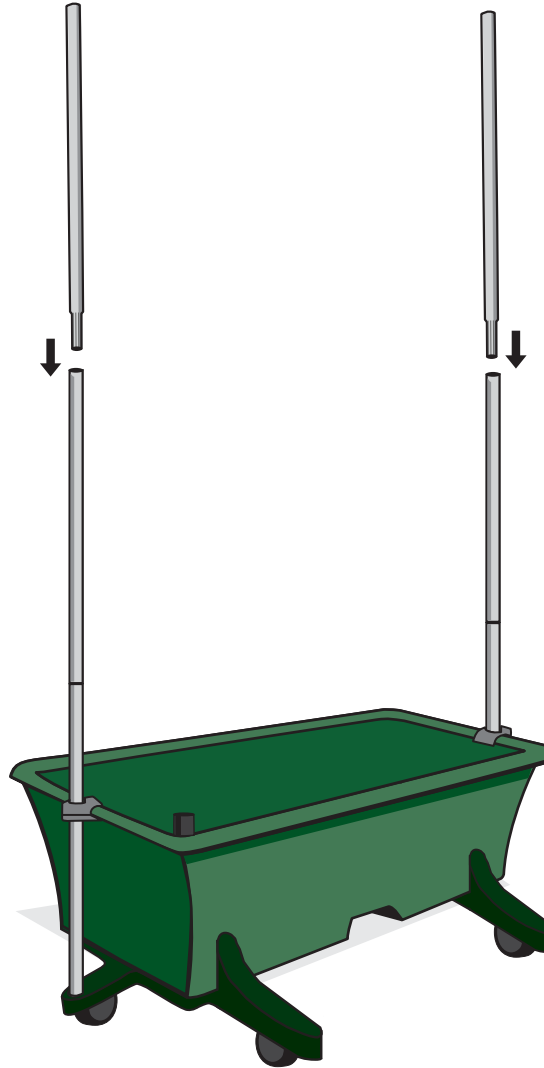

Remove the existing trellis net from the Staking System by cutting it off with scissors.

Detach the horizontal crossbar with the plastic T-Connectors by pulling the crossbar up.

2

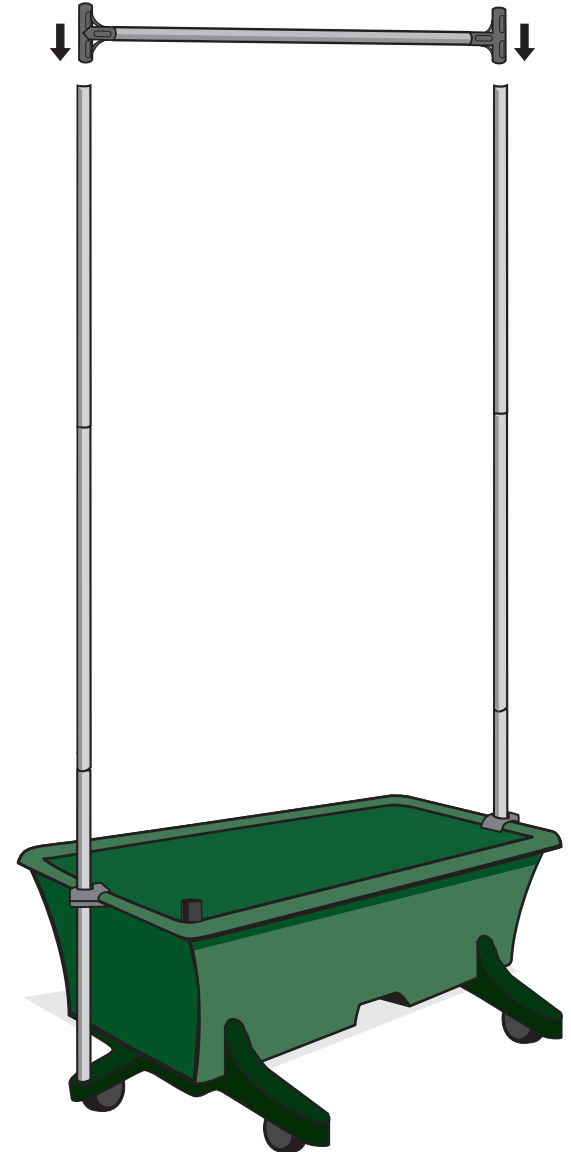

Insert Crimped Tubes

The Extension Kit includes two 29½" crimped end tubes. Insert the crimped end of a tube into the top of one of the vertical tubes. Repeat on the opposite side.

3

Attach Crossbar

Push the horizontal crossbar with the plastic T-Connectors into the top of the aluminum tubes.

4 Hang Trellis Net

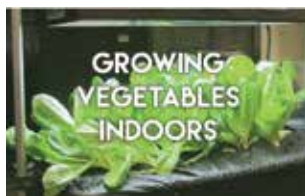

Hang trellis net over top T-connectors. Tie net to the top bar and down each side of the aluminum tubes at equal intervals.

Trellis net measures 4 squares across by 9 squares down. Any excess netting may be trimmed with scissors.
